

## Thank You for Purchasing the Wedding Planner!

Here's how to access, download, and make the most of your planner:

### 1. Downloading Your Files

- After your purchase, you'll receive a link to download the zip file containing your wedding planner.
- Save the zip file to your device, then right-click on it and select "Extract All" (Windows) or double-click (Mac) to unzip the files.

### 2. Printing Your Planner

- Open the PDF files using a PDF viewer like Adobe Acrobat Reader (free to download at [adobe.com](https://adobe.com)). Or, another of your choice.
- You can print the planner at home using high-quality paper, or take the files to a professional print shop for a polished finish.
- For best results, choose a paper thickness of 120–160 GSM and ensure your printer settings are set to "Actual Size" or "100% Scale" to maintain the original design layout.

### 3. Editing with Canva

- If you'd like to customize your planner, a **Canva link** has been included in the zip file.
- Simply click the link, log into Canva (or create a free account), and you'll be able to edit the planner's design.
- You can adjust colors, fonts, and text to make it uniquely yours.

### 4. A Few Tips for Customization

- Ensure you save your changes in Canva before downloading your final version.
- If you're unsure about a design change, Canva has an "Undo" button at the top for quick corrections.

### 5. Support

- If you have any issues downloading, unzipping, or editing the files, don't hesitate to reach out for assistance.
- Email: [info@manx.design](mailto:info@manx.design)
- We're here to help!
